

Director's Meeting

2014/05/23

Program

10:00-11:30 Session #1

11:30-13:30 Lunch

13:30-14:30 Session #2

- 14:30~ Prof. Jiro Kokuryo, VP of Intl. Relations
-

Agenda

- Summary of Operation Meeting
 - Summary of Site Update
 - Summary of Academic Committee
 - Tech update from Jun Murai
 - Development
 - External relations
 - Next meetings
-

Operation Meeting

Network operation status

changes & maintenance at SFC

NREN

TEIN4 connects BdREN (BUET-BdREN 20mbps), CamREN (ITC is NOC) 100mbps, MYREN 622mbps, ITB 622mbps.

INHERENT is not funded; now a collection of universities connected via IX. GOI had a plan to deploy FO in Java Island, but no progress. *wait for the next president?*

WASABI development

Use connect2sea grant for a workshop in SEA.

Interns did a foundation work for the browser app.

Kotaro gets students from IITH.

USM: Iznan for the media proxy.

UNHAS: Aulia for the media proxy/system.

Site Update

USM

Prof. Rosni : NAV6 coord.

EBA schedule is not conducive. 1700-1900MYT. earlier is better.1500-1700MYT.

Entre class should be announced well ahead for schedule synch. (1 semester ahead?)

now synch with Chula U. starts mid Aug

Keio U. starts Sept. 24 every Wed. 11:10-12:40JST

can do X-Chula joint

USM OER on Youtube.

UNHAS

Use GDLN room.

200mbps link., possibly 1gbps (2014)

Virt. with KIC

UCSY

Sometimes problem with VIC/RAT/VLC.

Campus link will be improved next semester.

VCube as gateway; but sometimes doesn't work

Submitted a proposal to join TEIN4 in June 2013. *Negotiation between M of Comm. and IT - M of Sci.*

Expected courses: CS, IT, Open Source, Project Management.

UCSM

6 mbps link.

IPStar for distance education.

Expected courses: IT field

ITC

Can't lock UDL signal; interference by 3 telco antennas nearby.

Dept. of Chemical and Food Engineering is active.

ITB

Ganeca-Jatinangor Campus 10G link (22km away). Jatinangor campus connects nearby campuses.

500mbps link.

5 universities tunnel to ITB for TEIN4 link.

Better use social media for course publications.

BUET

Sound system problem.

20mbps link to BdREN. 75mbps to 2 telcos.

Expected courses: emerging topics, IT.

UB

DL room moved; new cap. 30.

link to be increased to 1.4Gbps (TELKOM)

UNTL

Benny in Nagaoka, Niigata.

Vosco and other operators are in the campus.

10mbps link. 15mbps link via Telin (June~)

System doesn't work.

New operators need short training; lack the knowledge about the system.

Academic Committee

- review of past courses and upcoming plans
- certificate system should work to encourage students to join sessions
- marine sci&tech 15 sessions: ITC and UB were active, but need a better scheduling.
- utilize video archive + realtime
- wasabi workshop: advanced for the development, a repate for other
- internships: tech + entre, linked with industry; there will be announcement for 2014

- ITC and education: there will be another session in September. Open for all partners.
- A special session in ICT and Education?
- kindergarden with Malaysia in 2014; open call
- tech. problems should be identified and solved. ex: Myanmar VIC/RAT/VLC
- UNTL: sessions in Bahasa Indonesia from Indonesian universities like in the past with ITS (Surabaya). In Portuguese in the future.
- using more of polycom these days
- MOOC: translate Jun's class -> Multilingual
- Continue working others, e.g., UNESCO, Marine Sci&Tech

Discussions

Student record: yes for certificate purpose

Who, from where, in what event.

- Record all events; and identify participants
- for the future of participants and the project
- Create micro-certificates signed by the one running **each** event -> Hiromi
- Who issues the certificates?
- Marcos designs the certificate
- open badge?
- including AI3/SOI Asia meetings

Very important for TTB (Teacher to Be) sessions.

Very important to determine the final grade of students when included in credit-earning courses.

Attendance & evaluation based certificates.

Certification Task Force

- design the certificate system
 - internship?
-

Tech update from Jun Murai

Development/WASABI

Form a dev team: USM, UNHAS, CHULA, IITH.

Apply for a workshop with connect2sea grant (10k EUR): 1 week in Bali(?)

2 from Europe (ERCIM) (approx 2k EUR) + N from SEA.

Candidates: ITB, UNHAS, Chula, Mahidol (Vasaka group)

Fill the form: CV of coordinators (not necessarily the person to attend the workshop)

assoc.: Keio, USM, ASTI

External Relations

APAN

Next meeting: Taiwan end of August

Keiko was invited in a panel session (Global Collaboration) in APAN Bandung, along with 1 from China and 1 from Brazil. Network and activities.

Got positive responses, including from Kyushu U (Shimizu, medical team). Keen for collaborations.

China: Why no China in SOI Asia?

TEIN

always looking for applications.

extending networks to South Asia, Central Asia (Mongolia, *stan -> CAREN)

Korea drives TEIN in Asia

India

has some connections with UK, EU, Australia.

Kotaro is working India-Japan. Still no India-SEA, Kotaro can explore the possibilities.

Top universities are connected to National Knowledge Network -> TEIN

IITH - 1Gbps - NKN

UNESCO

Master class in Bandung at APAN Meeting. Africa joined. (tech. feasibility confirmed)

Nakata-san is in Africa, will be back in Japan.

Several sessions Ethiopia-Keio. The project is suspended.

Cultural events with UNESCO: One Day in Asia. Guinness Record level events.

Others

ANA100G

New TransPAC (NSF funded): 100G US-Asia. Candidates: Hong Kong, Singapore, Tokyo.
Proposal by APAN-JP. deadline July 7th

Next Meetings

Camp in Bali!

2014 Fall: Manila (ASTI)

2015 Spring: ITC

2015 Fall: UNHAS, BUET
